

MAPEX[®]

Venus Series

The Venus Series offers the aspiring young drummer excellent value in a five piece power set. Nine-ply select hardwood and rich grain wood shells produce full sound with plenty of volume. Each shell interior is made with rich grain wood for greater tonal clarity.

The solid single braced stands of the Venus series feature MAPEX's unique "Pro-Lok" system of adjustment plus thick non-skid boots that won't wear out.

Fast action, chain drive hihat and bass pedals fully compliment the outfit.
