

# *SATURN PRO SERIES*

**MAPEX**®

# SATURN PRO SERIES

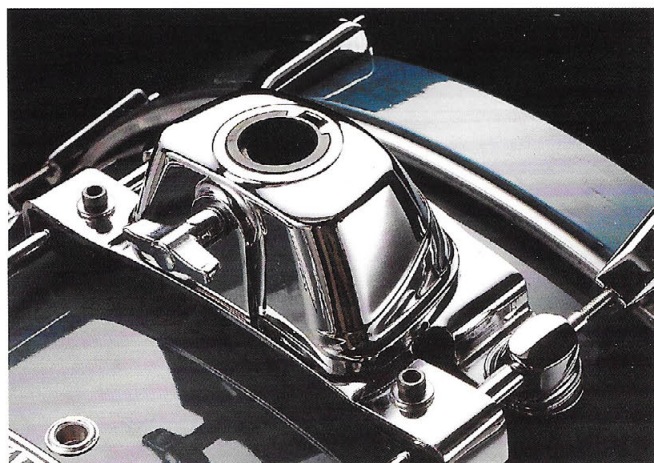

Hear for yourself. Saturn Professional Series drums have a resonance and dynamic range that you don't hear from any other drum. Shells are seven ply, 8 mm North American Maple over Mahogany matched with minimum contact shell hardware, for maximum vibration, and superb clarity and tone. Stands are light in weight and feature double braced and tight, durable fittings. Bass drum and hi-hat pedals are built for lasting strength, speed, and comfort.

Saturn Professional Series lets you customize your set the way top pro's do. Just select your ideal drum sizes, or choose from a prepackaged shell configuration, then choose from any one of Mapex's hardware packages. The Saturn Professional series allows each drummer to build their set from the ground up, using a select range of drum sizes and stands. See and play the Saturn Pro series today.

You'll be impressed. Not only with the sound, but also the look of Saturn's flawless lacquer or natural wax finishes and beautiful, individually mounted super Gladstone style lugs.

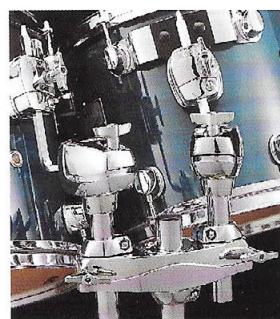

**Omni-Directional Tom Holder**  
Each tom can be individually adjusted and locked. Both toms can shift vertically on the tom holder for maximum positioning options.

## **I.T.S. Tom Holder Base Mount**

No tom mount hole drilled into your bass drum means increased bass drum volume! Saturn Pro's new isolated tom holder base mount connects from lug node to lug node on the bass drum. The tom holder fits into the base without touching the bass drum shell.

Saturn Pro Custom Setup Shown in ANTIQUE RED

The Saturn Professional Series has long been respected by drummers demanding a sound that surpasses the ordinary. Whether on stage or in the studio, Saturn Pro series will surprise you.

HP770	S700	C700	H700	P700 (2)	B700 (1) B710 (1)

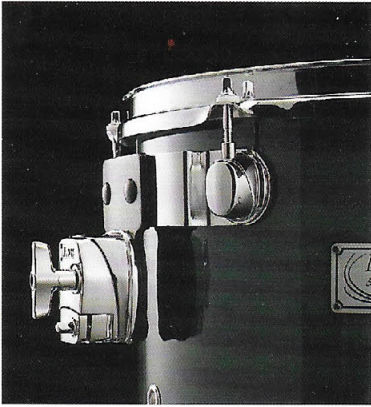

# I. ISOLATED

# T. TOM

# S. SYSTEM

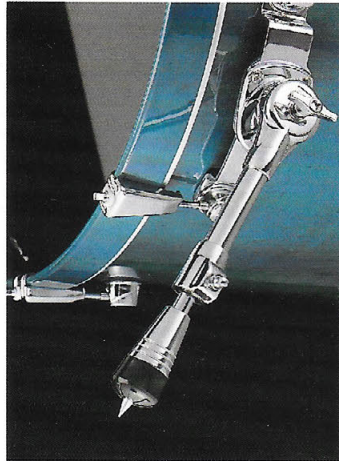

## I.T.S. Tom Mount

More pure shell resonance on mounted toms!  
By moving the metal hardware off the shell, the Isolated Tom System provides superior drum vibration and tone. Each **I.T.S.** mount connects from lug node to lug node on all toms.

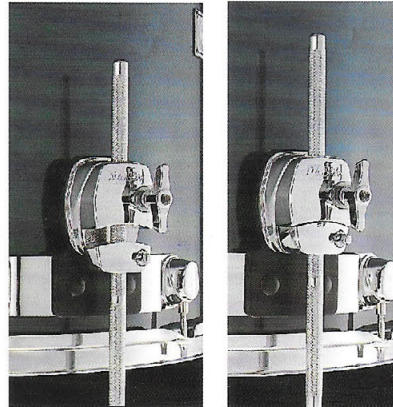

## I.T.S. Spur Mount

Increased bass drum boom!  
The isolated spur mount lets the bass drum shell vibrate longer and sound louder.

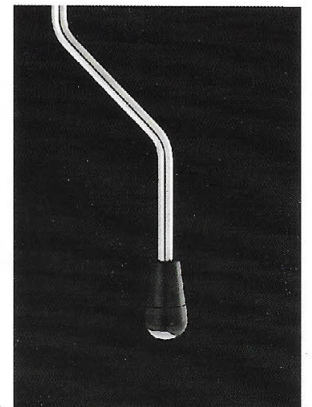

## I.T.S. Floor Tom Bracket

Exclusive hex shaped locking system and unique memory lock provide durability and stability.

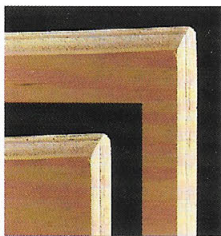

## Shock Mounted Floor Tom Legs

Floor toms float like mounted toms. Legs are spring loaded so shell vibration doesn't bottom out.

## **Saturn Philadelphia Series SP50S in Matte Natural with HP350 Hardware Pack**

Whether it's straight ahead jazz or hard driving bop, the Saturn "Philly" Series, is designed specifically to meet the needs of modern jazz drummers. The SP50S shell kit features smaller traditional jazz sizes including 20 x 14 bass drum, 14 x 14 floor tom, 12 x 8 and 10 x 8 mounted toms, and a matching 14 x 5" Maple snare drum. All shells are finished in Matte Natural. Match the SP50S shell pack with a 300, 500 or 700 series hardware pack, depending on your cymbal and pedal needs.

**Saturn Pro Shells**

(Saturn Philadelphia SP50S is available only in the above sizes, configuration and color)

# SNARE DRUMS

## MapleTech Snare Drums

MapleTech snare drums are warm, resonant and full of volume.
