

Drums that say something!

Orion Classic Birdseye Maple Model TBE632 in Transparent Violet finish with matching Black Panther snare. Cymbals not included.

Drums have been a source of communication for thousands of years and still are the most powerful communicator in music. That is why much of the R&D at Mapex can be summed up in one word. . . Voices.

Just like a singing group, a good drum kit must have distinct voices and textures. Drums must also speak different languages and rhythmically get feelings across that move individual listeners or large audiences. Our design team works closely with

Mapex artists to create drums that speak clearer and translate ideas better than any other drums made today. The results can be seen in this Orion Classic Series set. It has thinner, ultra-resonant all maple shells with precise bearing edges plus the exclusive I.T.S. isolated tom mount system. Available in a choice of shell dimensions that offer a wider range of voicing, Orion drums project without the muffling effect thick plies and evasive hardware often cause. Orion's elegant hand rubbed finish in an array of dramatic colors and gold plated lugs also speaks for Mapex quality as does its Performing Artist Series pedals and stands with

precision adjustment and smoother quieter action.

Check out the Orion Classics at better drum shops worldwide – they speak your language.

"Mapex gives me the range and voicing I need to back up a diversity of artists from Joe Sample to Steve Winwood."
