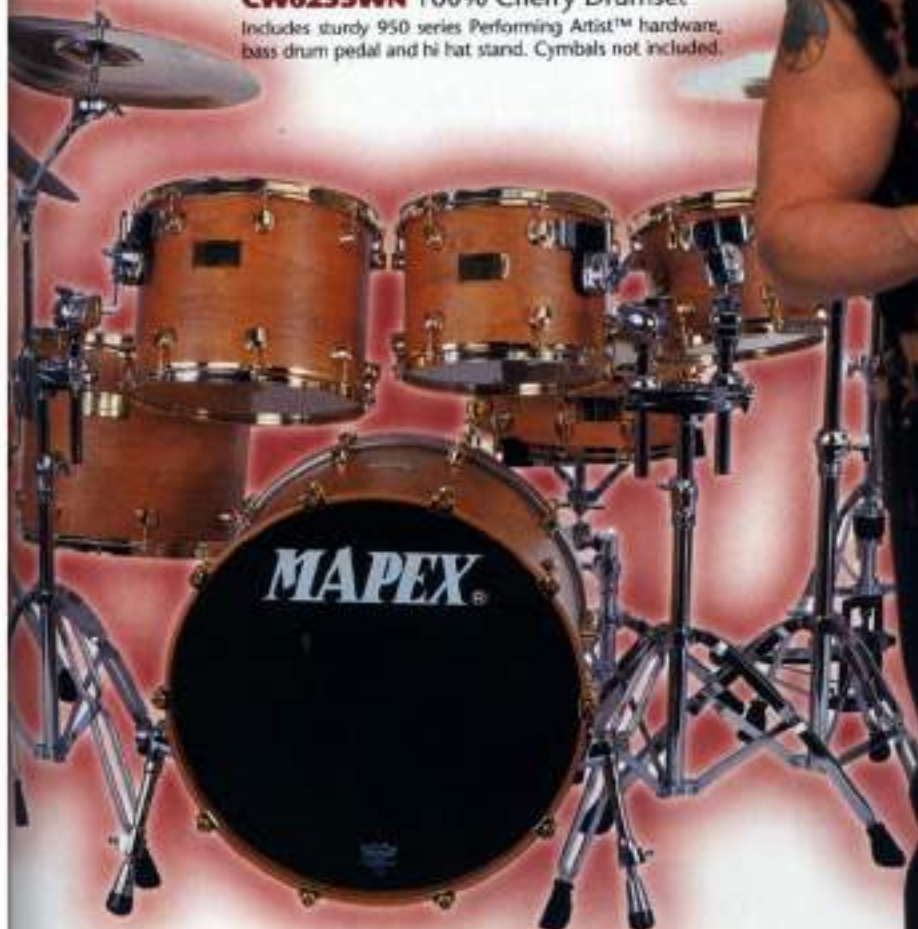

## **MAPEX. Deep Forest Project**

The only way you'll ever know if the Deep Forest is the finest drumset made is to play one for yourself. We can tell you about the **handcrafted 100% Cherry set with unequalled projection and optimal sensitivity**, and the **rich deep voice of the 100% Walnut drum set**, but your ears are the only endorsement that matters. Play a Deep Forest set today and you'll know why they're the best sounding drums made.
