M Series

MAPEX 'M Series' drums feature 8-ply, 8.1mm Maple/Basswood drum shells. The interior 7-ply basswood shell is a hardwood that has been used extensively in the manufacture of musical instruments due to its inherent tonal properties and relative affordability. Basswood, similar to birch in both appearance and timbre, accentuates upper frequency response with additional boost to the lower midrange areas. The result is a tightly grained, full-bodied yet relatively lightweight material that blends perfectly with other hardwoods providing enhanced depth, attack and projection. The outside maple ply further enhances tonal projection as well as providing an excellent base for the high gloss lacquer finish.

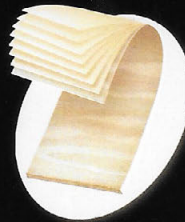

STANDARD M5255CY Transparent Cherry Red

7

I.T.S. Isolated Tom System
Mapex I.T.S. system enhances the drum's resonance and projection by eliminating the tom bracket to drum shell contact, allowing full, active shell motion.

1

Maple / Basswood Shell

8 ply, 8.1mm, North American maple and basswood shells blend strength beauty with a wide tuning range to provide enhanced depth, attack and projection.

2

REMO® Drumheads

REMO® designed Mapex drum heads on snare drums and toms. Bass drum heads are self-muting with thin Mylar™ underlay behind the body of the head.

3

Maple/Basswood Snare Drum

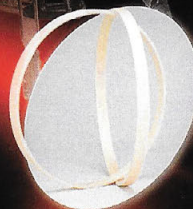

The internal Basswood plies contribute vast dynamic characteristics at a wide tuning range. REMO® heads and smooth throw-off complete the package. Finished with a color matched outer ply of North American maple.

4

OS Cymbal Accentuators™

Cymbal and boom stands are outfitted with the OS Cymbal Accentuators™ to enhance sustain of cymbals through minimal contact.

5

Basswood Bass Drum Hoops

Natural lacquered wood hoops enhance the bass frequency of the drum, without the brittleness associated with plastic or metal bass drum hoops.

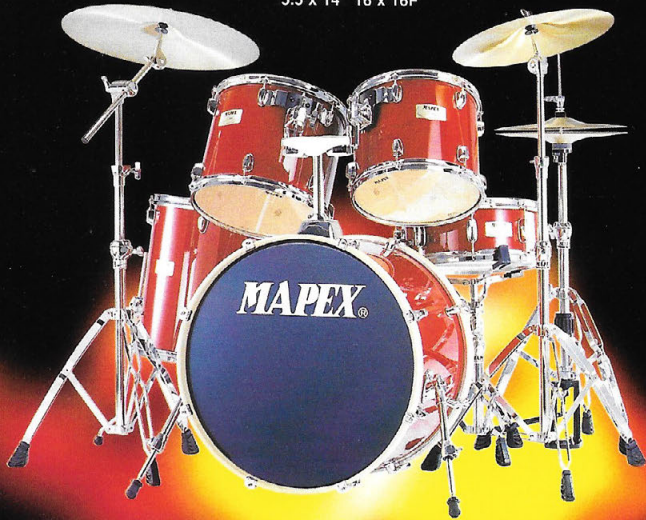

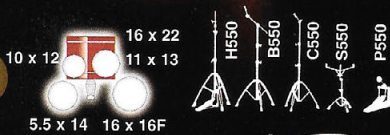

6

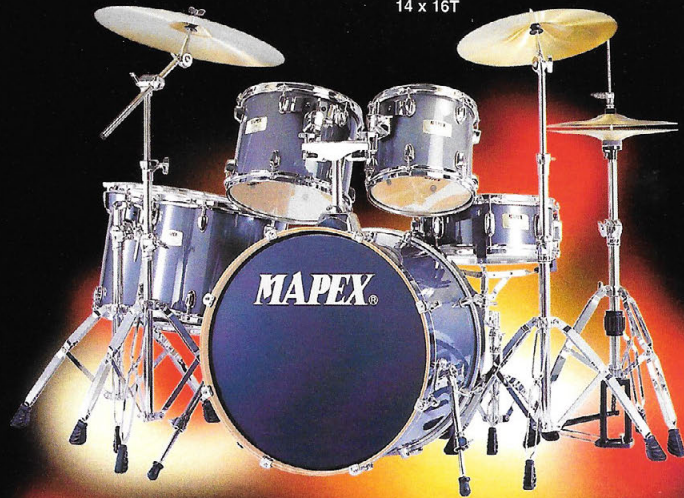

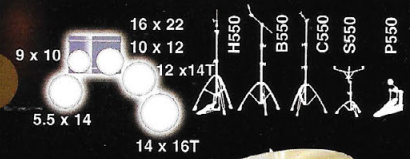

High Gloss Lacquer Finish

The 8-coat translucent polyurethane finish applied to the outer maple veneer, provides for an exceptional see-through or solid outer beauty. A final protective hand-coat protects against unexpected scratches.

HARDWARE INFO

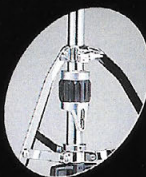

PERFORMING ARTIST SERIES™

Hi-Hat Stand H550

- Patented HH clutch and Tri-Nodal cymbal seat
- Rotating single-braced heavy-weight legs
- 10-stop wide range spring tension adjustment

Pedal P550

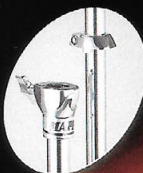

- Tri-tonal beater- Maple, Felt and Plastic
- Patented floating bass drum hoop clamp
- Sturdy steel footboard plate
- Rolling power drive cam and chain drive

10-Stop Spring Tension Adjustment

Incremental, positive tension adjustment for the individual's needs and playing style.

US Patent 4977810.

Mapex Designed Castings & Slip-Proof Nylon Sleeve

Secure the stand height within slip-proof nylon sleeves designed into the chrome castings, featuring the high-grade steel wing nuts that tighten into recessed steel nuts.

H550

Tri-Tonal Beater

Maple, felt and plastic provide a variety of sounds and feel.

P550

M Series

The M series includes a full-range of medium-weight, dependable and durable hardware. The 550 series double-braced stands secure stand height with slip-proof nylon sleeves within chrome castings featuring high-grade nylon wing screws that secure into recessed steel nuts.

Boom Stand B550 & Cymbal Stand C550

- OS Cymbal Accentuator™
- Steel-to-steel clamps with nylon inserts
- Multi-tooth ratchet
- Memory locks on lower castings

Snare Stand S550

- 18-Tooth ratch gear tilter
- Memory locks on castings
- Solid double-braced, middle-weight tubing

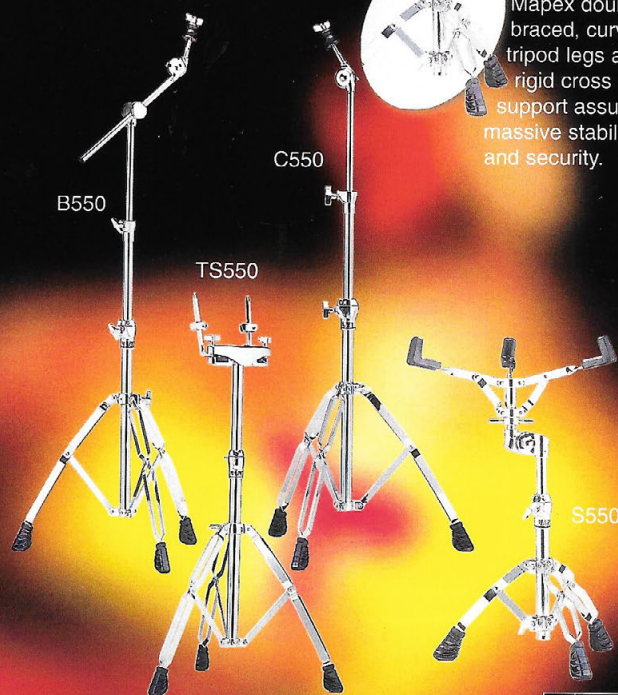

OS Cymbal Accentuator™

Enhance the sustain of the cymbal through minimal contact, offer more protection from the wing nut on top of the cymbal itself and will not compress or shred like traditional felt washers.

Double-Braced Tripod Base.

Mapex double-braced, curved tripod legs and rigid cross support assures massive stability and security.

V Series

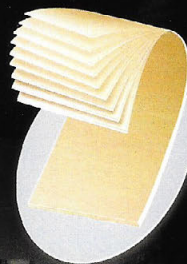

The MAPEX 'V Series' features all Basswood 9-ply, 8.1mm drum shells available in 8 durable, high gloss coverings that protect both the drum and its natural wood resonance. V Series was designed to provide the best of quality features at a very affordable price. Manufactured to the same standards as Mapex's Orion Classic™ and Saturn Pro™ professional drums. Available in a choice of configurations, the V Series features the 320 series double-braced hardware.

FUSION V5225BL Black

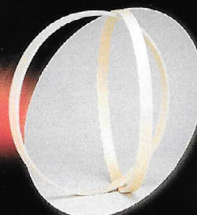

6
REMO® Drumheads
REMO® designed Mapex drum heads on snare drums and toms. Bass drum heads are Self-Muting with thin Mylar™ underlay behind the body of the head.

1
9 ply Basswood Shells
Select heat-formed Basswood shell wrapped in durable finish, provides pure resonance in a wide range of colors.

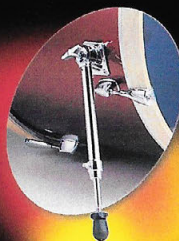

2
Basswood Snare Drum
All basswood shell provides a wide range of tuning and volume characteristics. Matching outer finish.

3
Basswood Bass Drum Hoops
Natural wood hoops with an color matched PVC insert enhance the bass frequency of the drum, without the brittleness associated with metal drum hoops.

4
Double-Braced 320 Series Hardware
320 hardware series provides double braced support, without weighing more than the drums. Also features high-grade steel wing screws that tighten into recessed steel nuts in the clamp castings.

5
Telescoping Bass Drum Spurs
Allows wide range of bass drum height adjustment, retractable rubber over steel tip provides non-slip security on floor surface.
