

step inside the mind of mapex

KEVIN MILLER
FUEL

Drummers aren't like other musicians.

They give life an extra squeeze.

Creative, explosive, obsessed, passionate, persistent, constantly striving – drummers are the band's energy source... and not just because they love what they're doing... they're also tuned in to other people. Drummers want *everyone* to feel the groove.

And creating the groove is what they do. The downbeat, the 2 and 4, is the foundation of the song. It all begins with the drummer, the heart of the band.

Mapex is not like other drum companies. We don't like to leave things as they are. If a player can imagine it, we can create it. And, you know, drummers are very imaginative.

Because our own craftsmen make every drum we sell, we completely control the creative process. That's why Mapex is not just what's new, Mapex is what's better.

If you can imagine it, we can create it

Combining proprietary design, engineering and manufacturing, Mapex creates the highest quality, most versatile products for every player – from entry-level students to legendary professionals.

Mapex's wholly owned manufacturing facility is the only factory in the world that builds Mapex products. Mapex applies the same strict ISO-9001-based quality guidelines across its entire family of products.

Every Mapex drum and hardware component is built to the same rigid specifications – regardless of price.

The remarkable consistency and excellence of Mapex products is the result of an environment committed to its employees and a continuous investment in state-of-the-art manufacturing equipment.

Being the sole manufacturer of its total product offering helps Mapex provide the best possible post-sale support for its customers.

Mapex offers the most comprehensive product warranty in the drum industry.

All drum shells come with a limited lifetime warranty against manufacturing defects. Hoops and finishes carry a warranty of one year and all Mapex parts and hardware come with an unprecedented five-year warranty.

The best drum shells start with the best wood.

Mapex selects only the finest woods for its shells. With individual plies less than 1mm thick, the result is overall stronger and thinner shell. The seams are staggered around the shell, providing additional strength and acoustic distribution.

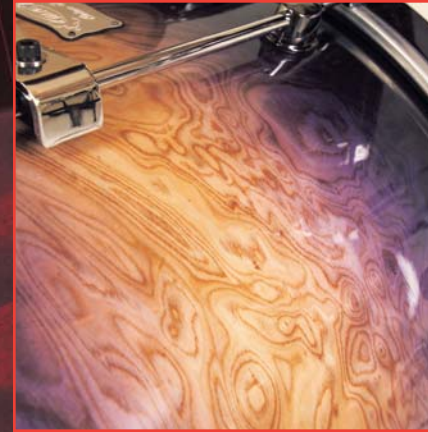

Each drum is finished off with a precision-ground 45° bearing edge, counter-cut at 0.5mm for optimum tone.

Hand rubbed with tender-loving care.

Mapex drums are given eight coats of hand-applied lacquer, each of which are hand rubbed, to give the finish a deep, high-gloss shine.

Mapex lacquer finishes are tough and easy to maintain and are crystal clear, allowing the beauty of the premium veneer to show through.

Take your best rimshot with confidence.

All Orion, Saturn and Pro M series toms and snares are equipped with the exclusive Mapex Powerhoop. Made from 2.3mm chrome steel, the Mapex Powerhoop provides flex resistance without adding additional weight.

Less resting weight on the drums' precision bearing edge reduces the muting associated with die-cast hoops.

The worst thing to do to a drum is to drill a hole in it.

Fewer holes means truer tone and resonance. That's why all Mapex drums use single point contact lugs. Only one hole is drilled into the shell for each lug, protecting the shells' tonal properties.

The lugs are low in mass as well, meaning less direct contact with shell, also protecting the overall integrity of the drum.

How can a thick piece of felt enhance sustain?

It can't. That's why Mapex 950 and 550 series Performing Artist™ Hardware comes with OS Cymbal Accentuators™. Minimal contact with cymbal gives you maximum sustain.

Unlike felt, the OS Cymbal Accentuator™ won't compress or shred and enjoy a longer life.

Bass drums shouldn't bear all of the burden.

Your bass drum is perhaps your hardest working piece of gear. Mapex Orion and Saturn bass drums are equipped with an Isolated Bass Drum Tom Mount System.

The weight and vibration of the rack toms is distributed over the span of the system, never contacting the bass drum shell, assuring true resonance without undue stress or interference.

Physics meets aesthetics.

The Mapex Isolated Tom System protects the shell's integrity and allows toms to vibrate freely, ensuring maximum projection and resonance.

The Mapex Isolated Tom System is discrete and visually attractive and adds very little weight to the drum.

Floor toms that give and forgive.

Orion and Saturn floor tom legs are equipped with spring-loaded feet that allow the tom a little "give" as they are struck.

This ingenious idea enhances resonance and projection, increases tunability in the lower register and prolongs the overall life of the drum and its hardware.

All the spur you need without the penetration.

Orion and Saturn bass drums are built with an isolated bass drum spur mount. By using existing lug mounting points instead of drilling additional holes, lower fundamental shell tones are enhanced by eliminating the cancellation of essential vibrations.

The fully-adjustable spur also features wide rubber non-slip feet and a retractable steel tip for hard-to-secure surfaces.

Find a position that fits and keep it there.

Mapex tom holders are equipped with the exclusive resin ball tom angle adjustment system. This versatile system allows you to position your toms independently in any conceivable position, then locks down tight for extra security, gig after gig.

Who says a bass drum claw hook can't be sexy?

Orion bass drums feature die cast chrome steel bass drum claw hooks that capture the hoops securely and evenly, while maintaining a low profile appearance.

The clean design lines provide an attractive appearance and the recessed tension rods make tuning fast and easy.

Playable quality right out of the box.

Mapex drums are exclusively equipped with Remo® drum heads. Like Mapex, Remo® is a worldwide symbol of quality manufacturing and premium performance.

Orion and Saturn drumsets are shipped with premium quality Remo® WeatherKing Ambassador heads.

orion

Isn't it time to indulge yourself?

If you've ever dreamed of owning a top-of-the-line, professional drum set — the one that makes your friends gasp, the one that everyone envies, the one that makes the sound engineer sit up and take notice — then take a closer look at the Mapex Orion Series.

Orion drum sets are built to order, with a wide range of sizes and stunning hand rubbed lacquer finishes. As you sit behind the kit and start to play, you'll be rewarded with sweet, rich tone produced by the thinnest, finest, most select North American maple shells.

Intense and luxurious wood grain, smart and sexy low-mass lugs, strong and beautifully designed hardware — these are the things that the accomplished professional deserves in a set of drums. Don't you deserve an Orion?

WALFREDO REYES JR
STEVE WINWOOD

Ready for the road.

Until you actually sit behind a Saturn kit and hear for yourself what two thin walnut plies do for ultra-thin maple shells, you really don't know what you're missing. The bass drum has that extra-fat bottom end, the floor toms that unmistakable punch, the mounted toms ring with warm resonance like you've never heard.

The perfect drum set for the road warrior, the Saturn is everything you need to make an impact on stage. Lightweight hardware, finishes especially designed to make the most of stage lighting, and above all, sonic qualities that set you apart from everyone else.

Sit down behind a Saturn and discover what so many touring professionals have learned. Do it for the crowd. Do it for the band. Do it for yourself. The Mapex Saturn may just be the last drum set you'll ever buy.

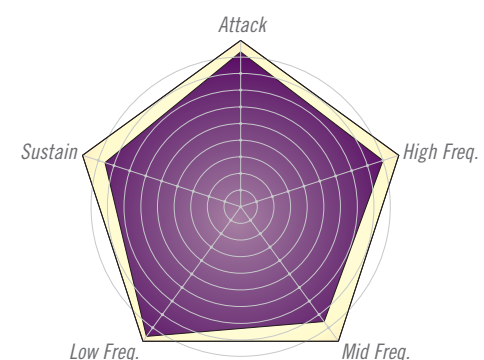

saturn

JUDY COCUZZA
CHEAP CHICK

Tools for the professional.

You've finally decided what to be when you grow up. You're a professional musician now. It's time for a drum set that delivers what your talent demands of it. The Mapex Pro M is the upgrade you're looking for.

Thin, all North American maple shells that deliver crisp, ringing tone and pure, gripping resonance. Add to that an isolated tom mounting system and durable, double braced hardware and the Pro M is ready for peak performance in the studio or on the stage. The hand rubbed shells are finished with eight coats of high gloss lacquer to give them an appearance that is equivalent to their spectacular sound.

This drumming thing is no longer a weekend hobby. It's your way of life. Look like a pro. Sound like a pro. It's time for a Pro M.

BRADY BLADE

DAVE MATTHEWS & FRIENDS, INDIGO GIRLS

Value with a capital M.

Think you can't afford a drum set with all-maple shells? Think again. The M Maple Series is the most solid value on the market in an all maple, lacquered set. Without busting your wallet, the M Maple is the ideal kit for the serious player who's looking to upgrade from the "kiddie" set or a great second set for the professional.

The M Maple comes in a variety of unique, hand rubbed lacquer finishes and is available in a wide range of configurations. The M Maple also comes with lightweight double braced hardware and Remo® drum heads.

Why play a mediocre drum set when you can benefit from the tone and resonance of maple shells for the same price? Check out how much quality your money can buy with the Mapex M Maple.

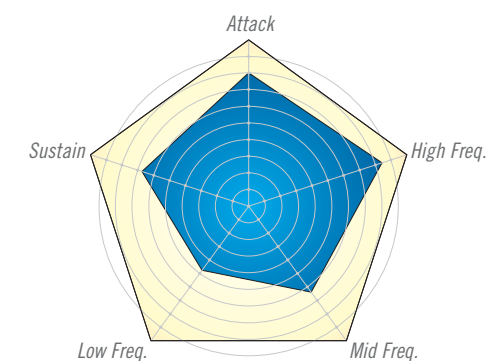

m maple.

SHELL ANALYSIS

THICKNESS: 7.2mm

MATERIAL: 9 plies Maple

RESPONSIVE PROPERTIES

- 9-ply, 7.7mm all maple shell construction
- high-gloss, 8-coat, hand-rubbed lacquer finish
- matching lacquered maple bass drums hoops
- I.T.S.™ off-the-shell, isolated tom mount system
- low mass, single-point-contact lugs
- matching all-maple snare drum
- 500-Series double-braced Performing Artist™ hardware
- OS Cymbal Accentuators™ for enhanced cymbal sustain
- padded throne included
- Remo® UT™ Series drumheads

CHRIS ADLER
LAMB OF GOD

Lacquer like you've never seen.

If you want to look like every other player out there, then the VX Plasma is probably not for you. However if you're the kind of drummer that, well, marches to your own beat, then Mapex has something for you.

We start with thin, genuine basswood shells and using a unique eight-step finishing process, give them a unique three-dimensional textured lacquer surface that's unlike any other. What's more, the VX comes with everything you need to start creating the moment you open the box. VX Plasma drum sets includes drums, double braced hardware, throne and quality ChinDal cast cymbals and a padded cymbal bag.

Whether you're playing covers in the garage or testing new material in the clubs, make sure you make a statement. The VX Plasma gives you the look. The rest is up to you.

vx plasma.

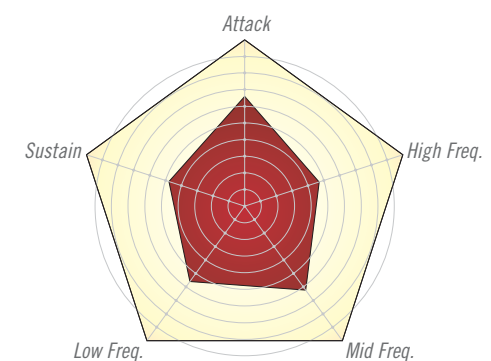

SHELL ANALYSIS

THICKNESS: 8.1mm

MATERIAL: 9 plies Basswood

RESPONSIVE PROPERTIES

- 9-ply, 8.1mm heat-formed basswood shells
- unique and striking three-dimensional lacquer finish

mapex pro series snares.

Mapex Pro Series™ snare drums are the perfect add-on or auxiliary drums for existing kits. First-rate in performance, the Pro Series™ snares are for the budget-conscious player that needs more than one snare drum sound. The quality-crafted shell materials (wood, steel, brass) contribute three distinctive, alternative voices to your performance. All Mapex Pro Series™ snares feature all-steel 2.3mm Mapex Powerhoops and extra-smooth throw-offs.

pro series wood

- Thin 7.7mm heat-formed maple and basswood shells
- Natural finish accentuates the grain of the maple
- 2.3mm Chrome Mapex Powerhoops

performing artist hardware.

Mapex Performing Artist™ single bass drum pedals provide smooth performance, accuracy and flexibility. Constructed to withstand the punishing stress of frequent use, they can be assembled quickly and easily.

single pedals

P950

Advanced Bass Drum Pedal with variable position cam and chain drive, maple, felt and ABS Tri-Tonal beater, steel stabilizer plate with adjustable built-in spurs and rubber tread, stroke adjustment stabilizer bearing, spring tension adjustable non-slip locking nut, patented floating bass drum hoop clamp, drum key holder

P750

Bass Drum Pedal with variable position cam and chain drive, maple, felt, and ABS Tri-Tonal beater, steel stabilizer plate with adjustable built-in spurs and rubber tread, patented floating bass drum hoop clamp

P550

Bass Drum Pedal with roller power drive cam and chain drive, maple, felt, and ABS Tri-Tonal beater, compact radius rod stabilizer, patented floating bass drum hoop clamp

P350 (not pictured)

Bass Drum Pedal with roller power drive cam and chain drive, hard felt beater, compact radius rod stabilizer

double pedals

Mapex Performing Artist™ double bass pedals are designed to be durable and reliable. The dual pedal chassis are linked with Mapex's patent-pending dual-universal, non-slip linkage system for balanced sensitivity during extended play.

P980

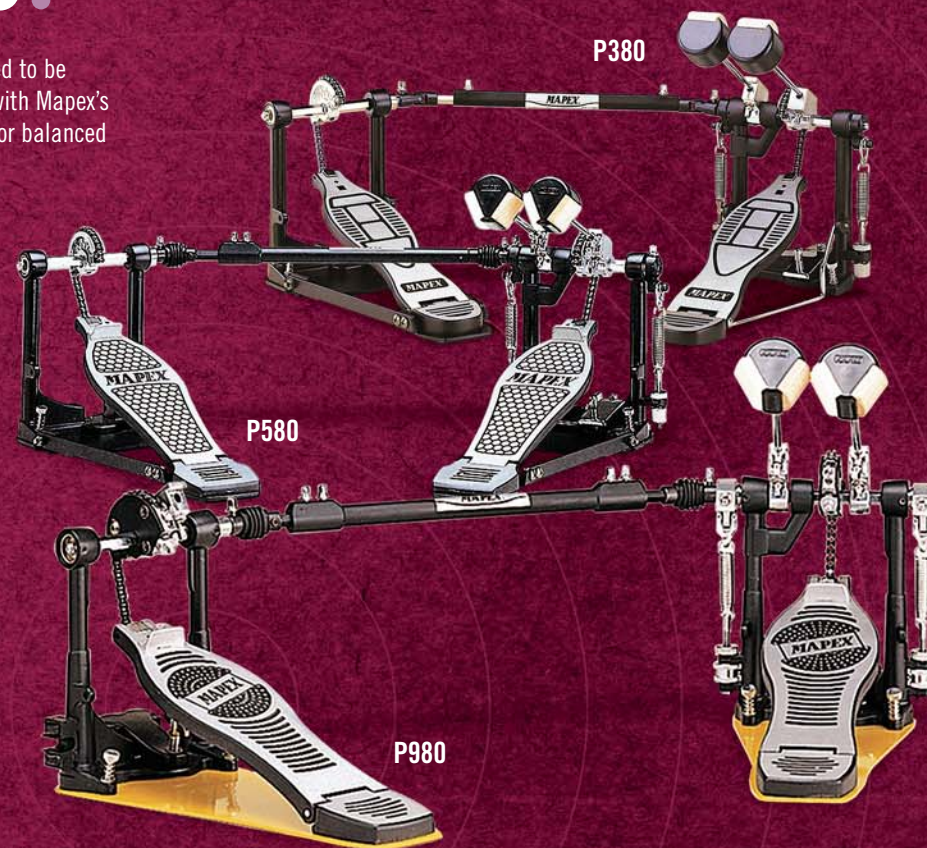

Advanced Bass Drum Double Pedal with variable position cam and chain drive, flexible protective rubber covered u-joints, adjustable hexshaft with internal retaining mechanism, maple, felt and ABS Tri-Tonal beater, steel stabilizer plate with adjustable built-in spurs and rubber tread, stroke adjustment stabilizer bearing, spring tension adjustable non-slip locking nut, patented floating bass drum hoop clamp, drum key holder

P580

Bass Drum Double Pedal with variable position cam and chain drive, flexible protective rubber covered u-joints, adjustable hexshaft with internal retaining mechanism, maple, felt and ABS Tri-Tonal beater, compact radius rod stabilizer, patented floating bass drum hoop clamp

P380

Bass Drum Double Pedal with roller power drive cam and chain drive, duo-tonal felt and plastic beater, compact radius rod stabilizer, adjustable hexshaft with internal retaining mechanism

hi-hat stands

Features like strong, steel tube construction, a patented hi-hat clutch and Tri-Nodal™ Cymbal Seat make Mapex Performing Artist™ Hi-Hat Stands a favorite among players.

H950

Tour-duty, professional hi-hat stand with OS Cymbal Accentuators™ for enhanced sustain, Tri-Nodal™ minimal contact bottom cymbal seat, patented True Direct Pull™ drive system for greater speed and control, 10-stop wide range spring tension adjustment, adustable heavy weight steel tube with single braced rotating leg assembly

H750

Tour-duty, hi-hat stand with OS Cymbal Accentuators™ for enhanced sustain, Tri-Nodal™ minimal contact bottom cymbal seat, 10-stop wide range spring tension adjustment, adustable heavy weight steel tube with single braced rotating leg assembly

H550

Studio-duty, hi-hat stand with OS Cymbal Accentuators™ for enhanced sustain, adustable steel tube with double braced rotating leg assembly

H350

Gig-duty, hi-hat stand with OS Cymbal Accentuators™ for enhanced sustain, adustable steel tube with single braced rotating leg assembly

cymbal stands

Mapex Straight Cymbal Stands feature OS Cymbal Accentuators™ to enhance sustain, a slip-proof nylon sleeve for secure stand height and durable construction built for heavy-duty use.

C950

Professional, tour-duty straight cymbal stand featuring dual-tube steel construction, adjustable slip-proof nylon inner sleeve with recessed memory locks, universal ball-in-socket cymbal tilter, double braced legs, non-skid rubber feet, OS Cymbal Accentuator™

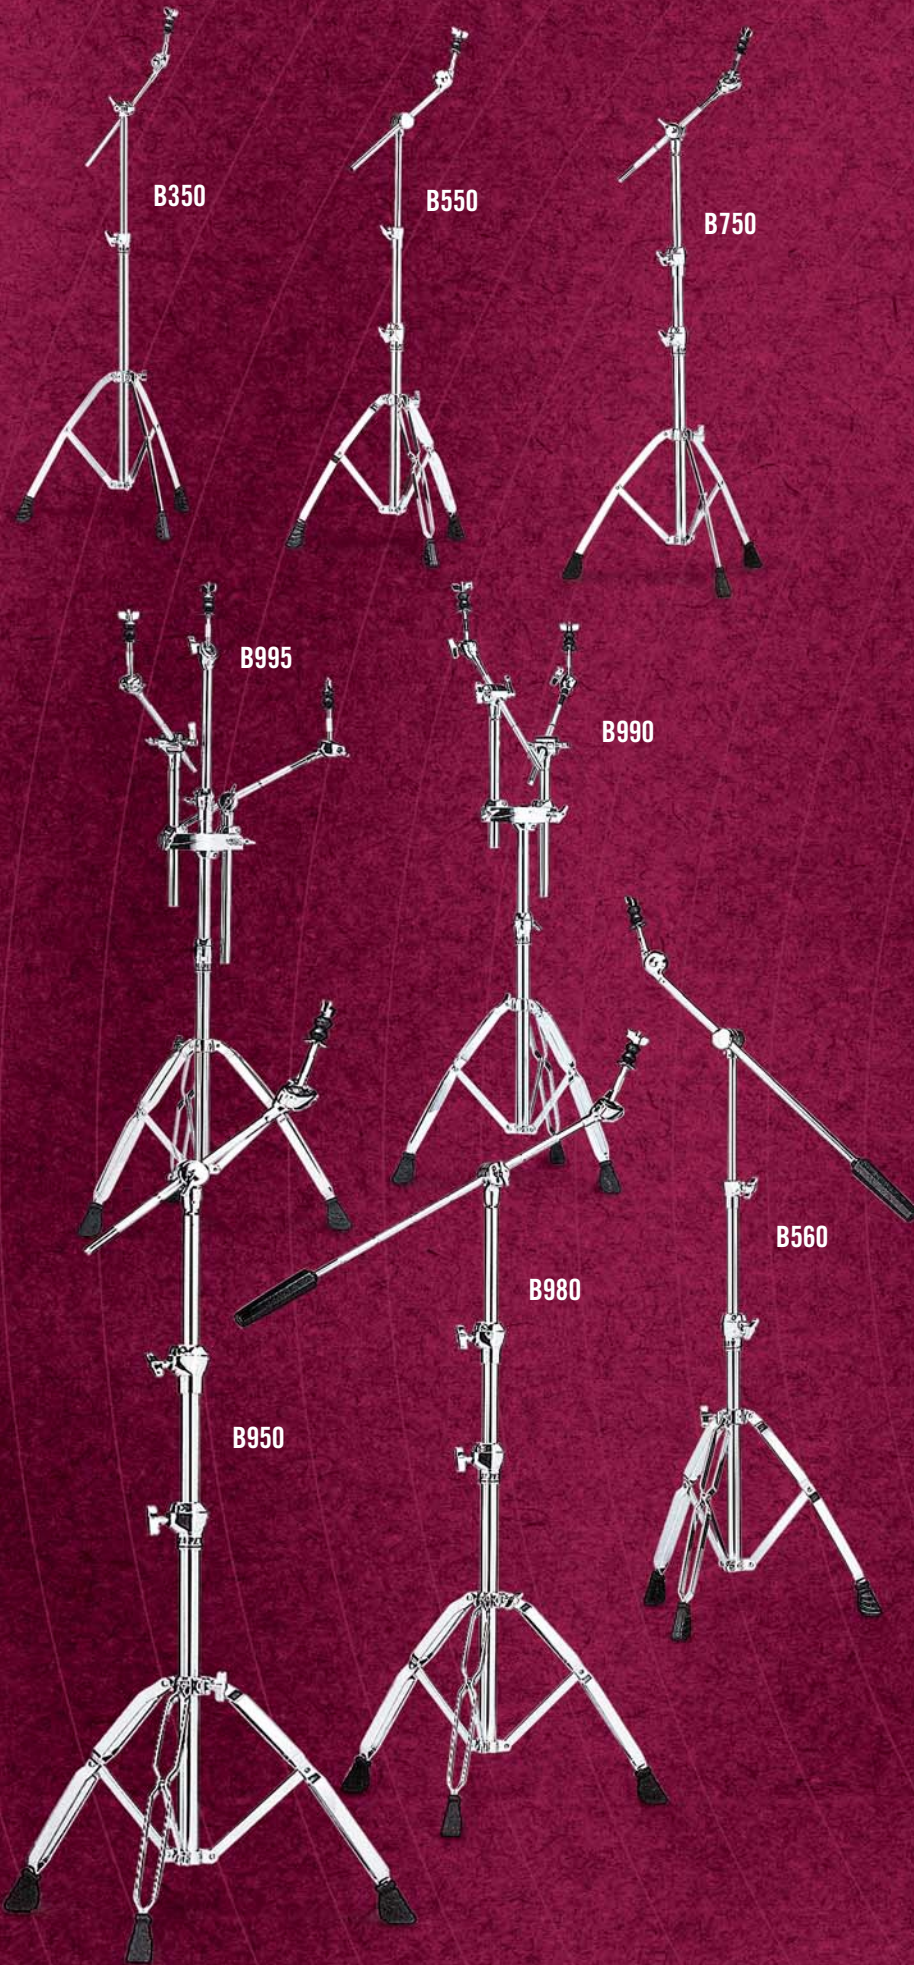

C550

Studio-duty straight cymbal stand featuring dual-tube steel construction, adjustable slip-proof nylon inner sleeve with recessed memory locks, multi-tooth ratchet cymbal tilter, double braced legs, non-skid rubber feet, OS Cymbal Accentuator™

C350

Gig-duty straight cymbal stand featuring single-tube steel construction, adjustable slip-proof nylon inner sleeve with recessed memory lock, multi-tooth ratchet cymbal tilter, single braced legs, non-skid rubber feet, OS Cymbal Accentuator™

boom stands

Mapex Boom Cymbal Stands provide stability and mechanical flexibility for any application. Rattle-free castings and reinforced rivets in the leg bracing ensure years of trouble-free performance.

B995
Professional, tour-duty triple placement boom cymbal stand featuring dual-tube steel construction, adjustable slip-proof nylon inner sleeve with recessed memory locks, universal ball-in-socket cymbal tilters, double braced legs, non-skid rubber feet, OS Cymbal Accentuators™

.mapex artists

From the world's largest stages

to the most intimate of jazz clubs and honky tonks, to the most high profile studios from Los Angeles to New York you'll discover that Mapex drums are being played day after day, night after night by some of the world's greatest musicians.

These performers have learned that Mapex brings out the best in what they have a passion for doing — playing drums.

Make the same discovery as these pros and step into the mind of Mapex.

Mapex Artist Brady Blade performs with Dave Matthews and Freinds at the 2004 Bonnaroo Festival.

Backline Support

When you're watching television and you see a Mapex drum set, chances are the artist playing it has had assistance from a backline company. Mapex kits and hardware are provided for a number of popular television shows programs as *The Tonight Show*, *The Late Show with David Letterman*, *The Carson Daly Show*, *Late Night*, *The View*, *The Today Show* and many others.

Mapex would like to thank its team of backline all-stars and recommend their services if ever you are in need of Mapex equipment rental.

the mapex warranty.

WARRANTY

MAPEX drums, hardware, stands and accessories, except as noted, purchased from an authorized MAPEX dealer, are warranted to the original retail purchaser against defective material and workmanship. Warranty coverage is not transferable and shall be valid by item and subject to terms and conditions indicated below. The original retail purchaser must include a copy of their original sales receipt or provide proof of sale by an authorized MAPEX dealer to activate warranty service without charge.

WARRANTY COVERAGE AND TIME PERIOD

Shells

Drum shells are covered under a limited lifetime warranty to the original retail purchaser against splitting, ply separation, material failure and going out of round as a result of manufacturing. Defects caused as a result of wear, handling, negligence, temperature, humidity, corrosive atmosphere or other external causes are not covered under this limited lifetime warranty.

Finish & Hoops

Both lacquered finish and hoops and all wrapped finishes are warranted to the original retail purchaser against defective material and workmanship for one (1) year from date of purchase. Defects caused as a result of wear, handling, negligence, temperature, humidity, corrosive atmosphere or other external causes are not covered.

Stands, Pedals & Hardware

MAPEX stands, pedals and hardware are covered under a limited five (5) year warranty to the original purchaser against defective material and workmanship. Defects caused as a result of normal wear, handling, negligence, temperature, humidity, corrosive atmosphere or other external causes are not covered under this limited five (5) year warranty.

WHAT THIS WARRANTY DOES NOT COVER

The following items are not covered under the MAPEX Warranty; heads, plating, pedal beaters, springs, snares, straps, normal wear and tear, sound, or damage from shipping and transportation. The MAPEX Warranty is rendered void on all items that have been altered, modified or subjected to improper operation, misuse, neglect or exposure to extreme conditions.

OWNER'S RESPONSIBILITY

To Obtain Warranty Service

A Warranty return should be handled by any authorized MAPEX dealer from which the instruments were purchased. All repairs under terms of this Warranty must be handled by Mapex USA. Any instrument to be returned under this Warranty requires a Return Authorization Number shown on the outside of the carton and must be shipped prepaid. Mapex USA will then inspect and evaluate the extent of warranty coverage and notify dealer of claimant. Mapex USA will repair or replace, at its option, any instrument or part thereof, found to be defective and covered under terms of the MAPEX Warranty. Repaired instruments will be returned freight collect.

WARRANTY LIMITATIONS

This Limited Warranty is made in lieu of all other warranties, either written or implied and is subject to the limitations contained herein. It is extended to the original retail purchaser only and not transferable. Proof of purchase is required. Under terms of this warranty, Mapex USA accepts no responsibility for incidental or consequential damages of any nature associated with the use of MAPEX products. This warranty gives you specific legal rights and you may have other rights which vary from state to state and could affect this warranty.

Product specifications described herein are subject to change with out notice. Due to limitations in the photographic and lithographic processes, colors illustrated may vary slightly from actual colors offered.
