-------------------	----

The Black Panther Collection includes drum sets that are each designed with a unique personality and sound originating from their snare drum predecessors. From the wood selection and bearing edge cut to the lug design and shell finish...each kit is a hand-made work of art that is suited for specific tastes. Don't look to find Black Panther drums with a variety of finishes like all the other professional drums out there... because it isn't gonna happen. With Black Panther...no corners are cut or compromises made.

RetroSonic

THE RETROSONIC

Looking back and moving forward! Retrosonic is a classic without the wait. The shells are hand selected walnut and outfitted with the unique Retrosonic full-length tube lugs and Sonic Saver hoops. With a Walnut Burl veneer finish, it comes as a simple and elegant three-piece set-up that's reminiscent of drum-building tradition from another age. Only 100 of these individual set-ups will be available worldwide.

All Black Panther Retrosonic column lugs are hand-tooled stainless steel.

The 1:9 rounded bearing edge ensures optimum sound because the drumhead seats at the furthest outer point of the shell allowing the drumhead to vibrate at its fullest.

The Mapex Sonic Saver™ hoop is another important ingredient to the Black Panther drum's total sound. The shape of the hoop helps further focus the overall sound. The unique shape of the hoop creates a profile that reduces wear and tear to both sticks and hands while dramatically enhancing the response and feel of every rimshot. The 2.3mm Sonic Saver hoop successfully bridges the gap between flanged and die cast hoops.

THE BLASTER

Like the name implies, Blaster packs a punch. The precise combination of shell design, shell materials, hoops and heads give the Blaster an extremely focused sound that can cut through a wall of sound. We started with a thin traditional 5.1mm American maple shell, added a 3.4mm walnut sound shaping ring to create a beautifully dark undertone. A 5:5 bearing edge with a rounded back cut process produces a quick and loud response with a fast decay.

Blaster 5-piece
BPL628XLWU

Traditional thin maple shells are known for their warm sound. Adding a walnut sound focus ring focuses the overall sound and adds a rich dark undertone to the maple.

The 5:5 rounded bearing edge places the head contact point in the middle of the shell, making for a perfect balance between head sound, shell vibration and overall volume and resonance.

The Mapex Sonic Saver™ hoop is another important ingredient to the Black Panther drum's total sound. The shape of the hoop helps further focus the overall sound. The unique shape of the hoop creates a profile that reduces wear and tear to both sticks and hands while dramatically enhancing the response and feel of every rimshot. The 2.3mm Sonic Saver hoop successfully bridges the gap between flanged and die cast hoops.

SCAN FOR INFORMATION

THE VELVETONE

Mapex has a long history of successfully combining different wood materials to make great sounding drum shells. The Velvetone brings this tradition to new heights with a new maple and walnut shell formula. Rich and dark 3.4mm walnut plies act as a low-end buffer between warm interior and exterior maple plies. A specially selected 1:9 bearing edge allows the Remo Ambassador Suede drumheads to resonate fully. The result is a drum that can whisper when needed, but can also roar at a moment's notice.

Velvetone 5-piece
BPV628XCUB

For a sound this special, using an “off the shelf” head was not an option. After hours of playing and recording, Mapex chose the Remo® Ambassador Suede drumhead. This head offers incredible response and provides a feel that many have described as “heavenly.”

The marriage of American maple and walnut brings to life a shell that reacts quickly, loud and long. To further ensure optimum sound, an extended 1:9 bearing edge is used on the shell. The drumhead seats at the furthest outer point of the shell allowing the drumhead to vibrate at its fullest.

The Mapex Sonic Saver™ hoop is another important ingredient to the Black Panther drum's total sound. The shape of the hoop helps further focus the overall sound. The unique shape of the hoop creates a profile that reduces wear and tear to both sticks and hands while dramatically enhancing the response and feel of every rimshot. The 2.3mm Sonic Saver hoop successfully bridges the gap between flanged and die cast hoops.

SATURN SE

WHERE BEAUTY MEETS THE BEAST

The Special Edition Saturn Birch/Walnut is an extension and addition to the distinctive Saturn sound. Mapex has taken the rich sonic characteristics of walnut and combined them with the bright and articulate punch of birch. The result is a drum shell that projects the perfect fusion of depth and clarity.

THE HORIZON BIG CITY KIT

BIG CITY PLAYERS NEED BIG CITY DRUMS

The Mapex Horizon Big City Kit is ideal for clubs and shows where space is tight, loading needs to be quick and efficient and sounding your best is critical. You'll be completely knocked out by the tone and response that the birch and poplar shells deliver. Make all your gigs sound big time with the HZB Big City.

Built-in adapter for optional boom arm.

Newly designed ITS system with clamp-style tom holder.

HORIZON BIRCH 5PC "BIG CITY" SHELL PACK (HZB581SCY)

Transparent Cherry Red, 18" x 14" Bass Drum with Mount, 10" x 08" & 12" x 08" Toms, 14" x 14" Floor Tom, 14" x 5.5" Snare Drum, Floor Tom Legs (x3), TH657, TH653. Snare drum, hardware and cymbals sold separately.

HORIZON^{HX}

START LIVING THE DREAM

The Horizon HX rewrites the book on what features an entry level drum set should have. The all basswood shell produces rich tones with remarkable sustain. The tone is further enhanced by the re-designed Mapex Isolated Tom Holder System (ITS). This new compact and lightweight system keeps the mounting hardware off of the shell allowing it to vibrate more freely.

U.S. PATENT PENDING

2.

3.

U.S. PATENT #7,498,501

1. Cylinder-Drive Strainer

The all-new cylinder-drive strainer and butt-end adjuster uses a self-lubricating bearing to ensure smooth operation while providing precise control of the snare tension. The adjustment dial employs "micro-lock" technology that provides a tactile "click" as it's turned, allowing precise control.

2. Premium Snare Wires

All Black Panther Snare Drums feature stainless steel snare wires for crisp, lively action.

3. Sonic Saver Hoops

The all new Mapex Sonic Saver Hoop bridges the gap between flanged hoops and die cast hoops. The unique shaping process creates a profile that reduces wear and tear to both sticks and hands while dramatically enhancing the response and feel of every rimshot.

The Sonic Saver is significantly lighter than a conventional die cast hoop, it won't choke the shell's vibration. The result is a more natural percussive sound with much greater resonance.

BLACK PANTHER SNARE DRUMS

Working closely with our drum design team, a panel of international Mapex Artists shared their advice and expertise on everything from shell materials and functionality, to sizes and aesthetics.

The result is a collection of unique Black Panther Snare Drums that look fantastic and sound even better. Each drum features hand built and hand finished Black Panther shells and completely redesigned hardware.

Visit blackpanthersnares.com for audio samples of the entire Black Panther Snare Drum line-up.

PANTHER

- › 3mm solid steel seamless shell
- › 2mm seamless steel c&c formed shell
- › 1mm seamless steel c&c formed sound control ring

› 14" x 5"

› 6:4 bearing edge

The ultimate Black Panther Snare Drum features a sensitive feel, big volume and a warmer sound than you would ever expect from a metal drum.

BPST450SLN

SLEDGE HAMMER

› 1.2mm hammered brass shell

› 14" x 6.5"

› Traditional 45° bearing edge

Some jobs call for heavy duty equipment. This drum bludgeons its way through the din with extreme volume and a distinct rounded tone.

BLASTER

- › 8.5mm shell constructed from 5.1mm maple shell and 3.4mm walnut reinforcing rings
- › 13" x 7"
- › 5:5 bearing edge

For an ear-shattering loud and aggressive response, tune this drum to a little higher pitch... and then warn everyone around you.

BPML3700LNU

BLACK WIDOW

- › 5.1mm maple shell
- › 14" x 5"
- › 5:5 bearing edge

This full-bodied, versatile drum features extreme sensitivity and a dark, dry tone.

BPML4500LNTB

PHANTOM

- › 5.1mm shell constructed from two exterior 1.7mm birch plies and one interior 1.7mm walnut ply
- › 12" x 5"
- › 5:5 bearing edge

This drum, with its unique hybrid shell possesses incredible sensitivity that creates a ghostly quality.

BPBW2500CNWA

PHATBOB

- › 12mm maple shell
- › 14" x 7"
- › 2:8 bearing edge

Built to be played hard and loud, this bad boy features an extra thick shell, rounded bearing edges and a deep snare bed for a thick, fat sound.

BPML4700TLNTB

CHERRY BOMB

- › 5.1mm cherry wood shell
- › 13" x 5.5"
- › 1:9 bearing edge

Classic in style and performance, this uniquely sized drum is as distinctive to the ear as it is to the eye.

BPCW3550CNCY

FASTBACK

- › 5.1mm maple shell
- › 12" x 7"
- › 1:9 bearing edge

The size and tuning range of this drum combine to produce a distinctive high pitch with plenty of body making it a great choice for Gospel or R&B.

BPML2700CNIT

VELVETONE

- › 8.1mm shell constructed from one 3mm exterior burl maple ply, one 3.4mm walnut middle ply and one 1.7mm interior maple ply

› 14" x 5.5"

› 1:9 bearing edge

Don't be deceived by its beautifully seductive exterior, this drum is wickedly dark with a high degree of sensitivity.

BPMW4550CNUB

BRASS CAT

- › 1.2mm brass shell

› 14" x 5.5"

› Traditional 45° bearing edge

Slightly softer than a steel snare. This drum produces an aggressive sound that's incredibly smooth.

BPBR4551ZN

MACHETE

- › 1mm steel shell

› 14" x 6.5"

› Traditional 45° bearing edge

If you're in need of a drum that can hack its way through the thickest of guitar noise, look no further.

BPST4651LN

STINGER

- › 1mm steel shell

› 10" x 5.5"

› Traditional 45° bearing edge

Tune this drum high and hit it hard. It'll only hurt for a second.

BPST0551CN

BLADE

- › 1mm steel shell

› 14" x 5.5"

› Traditional 45° bearing edge

A visually sleek and alluring instrument with razor-sharp tone that carves deeply into any groove.

BPST4551LN

RETROSONIC

- › 8.1mm walnut shell

› 14" x 5.5"

› 1:9 bearing edge

This classically styled, beautifully crafted drum produces a rich, vintage-style sound.

FALCON

FALCON SINGLE PEDAL (P1000)

The Falcon's sensationally smooth feel is generated through the hollow inox steel drive shaft that significantly reduces drag and excess weight.

Let your feet fly...

The Mapex Falcon is the smoothest bass drum pedal you'll ever play. Every function and adjustment has been engineered to make Falcon feel as if it's an extension of your foot. Elevate your performance to a new level and let your feet fly with Falcon from Mapex.

Independently adjustable footboard and beater angles enable you to fine tune your ideal combination of playing comfort and force of stroke.

Uniquely sculpted footboard accommodates to any foot angle and operates with minimal expended energy.

Falcon's footboard design provides the feel of a longer board without the additional weight or mass.

Reversible beater head comes with interchangeable 10g & 20g inserts.

Connecting rod can be extended from either end, making it easy to accommodate virtually any set-up.

A sure-grip rubber base, adjustable spurs and an optional Velcro strip ensures secure placement.

Exclusive sealed bearing mechanism hinges footboard and heel plate together.

Beaters are equidistantly positioned for an even response from primary to secondary beater.

Experience an exceptionally smooth stroke and recoil motion through Falcon's independently moving torque-free spring mechanism.

Easy-to-reach, resistance-free Talon clamp adjuster.

FALCON DOUBLE PEDAL

P1000TW

Left foot pedal also available (P1000LTW).

1. Falcon's compact footprint affords more room to comfortably position your hi-hat and snare stands.
2. The Falcon's patented Talon bass drum hoop clamp features locking claws that move independently from the pedal frame. Even if your bass drum is pitched at a severe angle, the pedal's remains flat to the floor and securely clamped to the drum for the utmost comfort and security.
3. Dual-axle design ensures equal beater impact for consistent sound and incredible feel.

U.S. PATENT #5,641,924

U.S. PATENT PENDING

FALCON

DIRECT DRIVE

Every ounce of your energy can now be transferred directly into the drum. The Falcon is now available in a Direct Drive version P1000D single and a P1000DTW double.

Let your feet fly... *FASTER.*

Raptor

DIRECT DRIVE PEDALS

THE SMOOTHEST STEP TO SPEED

The Raptor has all of the power, stability and security you would expect from a direct drive pedal, but has the feel that you can only get from a chain pedal. Once you play it, you'll immediately understand why the Mapex Raptor is the only pedal with a smooth step to speed.

RAPTOR SINGLE & DOUBLE PEDALS

P900D Single Pedal
P900DTW Double Pedal
(Left lead models are also available.)

1. Experience an exceptionally smooth stroke and recoil motion through Raptor's independently moving torque-free spring mechanism.
2. Reversible beater head comes with interchangeable 10g and 20g inserts.
3. Direct Drive delivers the power, stability & security you expect from a direct drive pedal, with the feel that you only get from a chain pedal.
4. Compact 4.44" footprint affords more room to comfortably position your hi-hat and snare stands.

P710 SERIES BASS DRUM PEDALS

YOUR FIRST BIG STEP

Every first step is a big deal and your first bass drum pedal is no exception. It has to be fast, rugged and, of course, look cool! The new Mapex P710 Series drum pedals are changing the rules of what a bass drum pedal should be.

The P710 Series pedals start with a strong and solid double chain that will handle all of the fast footwork you can throw at it. The P710's solid steel base plate with adjustable spurs provides all of the strength and stability you'll ever need.

Make the Mapex P710 bass drum pedal your very first big step.

Left foot pedal also available (P710LTW).

Single Pedal
P710

Falcon style reversible beater head.

Double chain drive system & solid base plate

Double Pedal
P710TW

Left foot pedal also available (P710LTW).

Compact 4.44" footprint affords more room to comfortably position your hi-hat and snare stands.

P500 SERIES BASS DRUM PEDALS

Mapex Pedals are made of solid steel components and are engineered to be reliable, durable and most importantly playable. Adjustments are made quickly and easily, keeping drummers going night after night.

DRUMMER’S THRONES

THE BEST SEAT IN THE HOUSE

Playing and sounding your best is about more than your drums. Feeling comfortable and secure while you play is every bit as important. The new Mapex T770 and T775 Four Point Support Thrones provide comfort and stability for every gig.

The heavy-duty four-leg design keeps you completely stable and perfectly balanced while playing. The threaded steel spindle allows precise height adjustment from 18 to 26 inches. A memory lock secures your desired seat height so you’re completely comfortable every time you play.

All Mapex thrones are durable, stable and comfortable. With a wide variety of sizes available, drummers are sure to find a perfect fit.

Saddle Support Throne
T775

Round Support Throne
T770

Choose from the 14” round or the 17” wide saddle-style seat. Both have a 4” cushion. The removable backrest can be adjusted horizontally and vertically to provide critical lower back support.

When it’s your time to perform, make sure you have the best seat in the house with the Mapex T770 and T775 Four Point Support Thrones.

See the entire selection of Mapex Drums and Hardware at mapexdrums.com. Product specifications described herein are subject to change without notice. Cymbals are not included, except where indicated. Some items may only be available via special order, see dealer for details.

Due to limitations in photographic and lithographic processes, illustrated colors may vary slightly from actual colors offered. Since wood grain patterns appear randomly in raw materials, wood grain on product pictured will differ from actual product.

Black Panther®, ITS® OS Cymbal Accentuators™ and Tri-Nodal are trademarks of Mapex, Incorporated. Remo® is a registered trademark of Remo®. Mapex® is a registered trademark of Mapex®. Mapex thanks MEINL, PAISTE, SABIAN and ZILDJIAN for their support in product photography.
