Each XO trumpet is built around a traditional two-piece valve casing with nickel silver balusters. By offering a wide selection of bell materials and leadpipe options as well as standard trim package incorporating both round and D-shaped tuning slides, pearl and smooth valve caps and two levels of valve springs, these models can be customized to meet the professional's performance needs.

XO PROFESSIONAL B♭ TRUMPETS

FLUGELHORNS

XO flugelhorns feature a special bore and bell taper to produce the rich, warm timbre you expect from a premium quality instrument. The instruments come standard with French-style tuning slides, deluxe 3rd valve trigger, and your choice of hand-crafted yellow brass or rose brass bells. Dual lapped Monel pistons ensure smooth, responsive action. A solid nickel silver tunable leadpipe enhances the tonal focus creating an incredibly rich tone with great warmth and presence.

ONE NIGHT ONLY: PAT & SAM

Sam Pilafian and Pat Sheridan, Chief Design Consultants for XO Brass and Jupiter Brass Instruments, possess more than half a century of experience designing brass instruments for top players throughout the world. The pair has aided in the creation of several marching and concert brass instruments, including horns in the highly respected Quantum Marching and XO Professional product lines.

Aside from their highly respected design prowess, these gentlemen carry with them esteemed performance careers that span over four decades. They have left an indelible impression within the world of brass ensemble, both as performers and as educators. Pat and Sam continue to play in top venues across the globe, and are true ambassadors for XO and Jupiter brass.

Designed by Altus founder and flute maker Shuichi Tanaka, Azumi flutes are a perfect fit for the serious student and aspiring flutist. The most distinct feature of all Azumi flutes is the Altus Z-Cut professional headjoint which responds quickly and easily and produces a full and rich tone in all three registers. All Azumi flutes feature pointed key arms for an elegant and refined look, improved key strength, and balanced playability throughout the entire range of the instrument. The Altus/Bennett scale makes these flutes effortless to play in tune.

AZUMI AZ2

The AZ2 features a Sterling Silver Altus Z-Cut headjoint and a silver-plated body. Open holes and the B footjoint are standard.

AZUMI AZ3

The AZ3 features a Sterling Silver Altus Z-Cut headjoint and a Sterling Silver body. Open holes and the B footjoint are standard. The C# trill key is available as an option.

CARRY BAG OPTIONS

Fiberglass models are available with a comfortable nylon carrying bag instead of a hard shell case. Specify 596L.B for lacquered brass model or 596S.B for the silver-plated model.

Featuring four independent levers in addition to a master throw off, the ground-breaking Multi-Link strainer system allows the performer to adjust their timbre and response quickly and quietly.

PROPHONIC SERIES - WALNUT

Dark, deep, and dynamic... The Prophonic walnut snare drums bring an array of powerful voices for the most intense of musical passages.

PROPHONIC SERIES - ALUMINUM & MAPLE

Balanced, bright, and responsive... Prophonic thick maple and cast aluminum snare drums are able to articulate the most complex and exposed figures.

CONCERT BLACK SERIES

An excellent choice for any level of performance, the Concert Black snare is well suited for all genres and applications. The combination cable snares yield a premium sound at any dynamic level.

"The Prophonic snare drum allows me to compose and perform things that would not come across as well on other instruments. I love the sensitivity, versatility and style!"

CASEY CANGELOSI

Professor of Percussion at Concord University,
Renowned Composer and Performing Artist

Each Prophonic 14"x5" and 14"x6.5" Snare Drum comes complete with the Prophonic Series Pro Tour Case.

M6543D

M6543P

M8650H

Whether aesthetic, sonic, or functional, Majestic marimbas address the details. Exquisitely styled, and with full bodied tone, they also fulfill the practical needs of the performer with features like independent resonator sections and re-leveling rails.

In recognition of the cost and growing scarcity of rosewood, Majestic offers two other viable bar materials. The projection and durability of synthetic bars is perfect for the rigors of school use, while padauk wood offers warm sound and a softer feel that yields an ideal home practice instrument for aspiring percussionists. The Majestic M6543D offers five bar graduations and full featured frame/leg system that place it among the finest padauk bar instruments available.

"I have found the X8540H to have a warm, consistent tone throughout its 4 octave range. This will allow for great flexibility in its application to a variety of musical situations. Bravo Majestic!"

DON PARKER

Associate Professor
of Music/Percussion,
Music Coordinator at
Fayetteville State University

QUANTUM MARCHING SNARES

The Quantum family of marching snare drums includes the XT and Agility models. Both feature two interior plies of birch and four exterior plies of maple for a warm overall sound with an enhanced attack and rimshot characteristic, and a special snare bed that provides superior snare response. Both have the ability to support the highest tension tuning schemes and all batter and snare head types. The reduced shell depth of the Agility model offers reduced weight and enhanced articulation for indoor and outdoor applications.

QCT680234
SEXTET

The Mapex Quantum tom shells feature interior plies of Walnut and progressive cutaways that produce a full, dark tonality with intense clarity and projection. Walnut reinforcing rings provide shell stability while retaining the characteristic warmth of the shell.

GAT660234
SEXTET

Mapex Quantum Agility Multi-Toms provide the reduced carrying weight of shallower shells in response to the ever-increasing demands of body movement and fast-paced drill on the field and the floor. Greater clarity for arenas and domed stadiums is created through the special acoustic physics of the minimal cutaway and radical porting system.

MARCHING BASS DRUMS

Quantum Bass drums feature progressive air vent placement for a more consistent sound and feel throughout the bass ensemble and are outfitted with chambered aluminum hoops that provide strength and stability while eliminating the need for additional rim protection. Lightweight, aluminum tube lugs minimize shell contact while ensuring the best possible alignment of tension rods to keep tuning stress off the shell.

MONOPOSTO/BIPOSTO® CARRIERS BY MAY™

Monoposto/Biposto marching carriers by MAY ensure complete freedom of movement, in complete ergonomic comfort. The Monoposto/Biposto bridge transfers all sheer and torque load away from the abdomen plate while the Articulating Back Support (ABS™), Contour Hinge™ and multi-axis shoulder adjustability conform to all body types, yielding the ultimate in stability, control and comfort.

ALUMINUM TUBE CARRIERS BY MAY™

Aluminum Tube Carriers by MAY feature simple, ergonomic lightweight design. This patented design is ideal for comfort and is fully adjustable to fit all students from smallest to largest. Extended torso adjustment and full shoulder rotation facilitate comfort while the sturdy aluminum construction insures strength and durability.

MAY AIRlift technology provides active assistance in countering instrument weight, allowing effortless adjustment of playing position.

AIRLIFT STADIUM HARDWARE BY MAY™

Integrated with an innovative air suspension system, the telescoping tube glides up and down effortlessly ensuring easy, instant set up and positioning of your instrument. A single leg can adjust independently of the other two legs to ensure stable support of the instrument whether on the field or in the stadium stands. The Drop and Lock Technology integrates with MAY carriers for instant mount and dismount from carrier to corresponding Stadium Hardware Stand.

"Majestic's dedication to education and the development of young mallet players is unique and commendable."

SCOTT BROWN

Dickerson Middle School Percussion Ensemble and Lassiter High School Percussion

Optional add-on wheel accessory and carrying bag sets are available.

Majestic Gateway mallet instruments provide a modular system that makes real performance quality instruments accessible to young percussionists. Features including wide graduated bars, extended range, and full resonators on select models facilitate meaningful practice of all mallet techniques. Optional bag sets and lightweight frames accommodate manageable transport.

SNM628XFPC | Red Strata Pearl with Chrome Hardware (C)

Pictured shell pack is featured with Falcon 1000 series hardware. Falcon hardware, cymbals and snare drum sold separately. Saturn Series drums are also available in additional shell packs configurations. For configuration and finish options, visit mapexdrums.com.

Outside of the new features, the unmistakable sound of the Maple and Walnut hybrid shell continues as Saturn's most valued and distinguished feature. Rack toms sing with clarity and warmth, floor toms sound bigger and deeper than their size, and bass drums produce a dense punch and full boom. The MH Edition kits are all fitted with chrome hardware and are available in six new finishes.

SATURN IV FEATURES:

- » **NEW** SONIClear Rack Tom Suspension
- » **NEW** SONIClear Floor Tom Legs
- » **NEW** Low-Contact Bass Drum Claws
- » **NEW** Memory-Mark Bass Drum Spurs
- » **NEW** Free-Floating Bass Drum Tom Mount (Optional)
- » **UPGRADE** Sleek Single Point Contact Black Panther Lugs
- » **UPGRADE** Black Panther Piston Strainer
- » Single-Point-of-Contact Lugs
- » 2.3mm Sonic Power Hoops
- » Remo Emperor Clear Batter Heads
- » Remo P3 Batter Bass Heads

NEW SATURN IV MH

Tom & Snares: 6ply / 5.1mm - Maple & Walnut Hybrid, **Bass Drums:** 8ply / 7.5mm - Maple & Walnut Hybrid, Chrome Hardware, **Hand Applied Lacquer Finishes:** Red & Blue Hybrid Sparkle Lacquer (PH), Granite Sparkle Lacquer (QL), Transparent Espresso Walnut Lacquer (TW), Transparent Merlot Burst Lacquer (CL), **Mapex Custom Coverings:** Marine Spiral (MA), Red Strata Pearl (PC)

MODEL	BASS DRUM	TOMS	FLOOR TOMS	MOUNTING HARDWARE

SMN426xSNL | Natural Ash Burl with Black Nickel Hardware (B)

Pictured shell pack is featured with Falcon 1000 series hardware. Falcon hardware, cymbals and snare drum sold separately. Saturn Series drums are also available in additional shell packs configurations. For configuration and finish options, visit mapexdrums.com.

Like the MH Edition, the shells are the classic Saturn Maple and Walnut hybrid. However, that's where the comparison ends. The Exotics all come standard with black chrome hardware and are available in five distinct burl finishes with exquisite figuring. Players will have a hard time deciding on their favorite finish. And even if they can, they won't be sure whether they want to play them...or just stare at them.

NEW SATURN IV MH EXOTIC

Tom & Snares: 7ply / 6.15mm - Maple & Walnut Hybrid, Bass Drums: 9ply / 8.55mm - Maple & Walnut Hybrid, Black Nickel Hardware, **Hand Selected Figured Wood & Hand Applied Lacquer Finishes:** Natural Ash Burl (SNL), Cherry Mist Rosewood Burl (RLE), Transparent Ash Burl Burst (SWV), Deep Water Ash Burl (SSL), Satin Black Maple Burl (KFB)
